FOR IMMEDIATE RELEASE

One-Way Traffic Control on State Route 150 Begins next Wednesday

Drivers Should Plan for Delays Between 7 a.m. and 5 p.m. Weekdays

Between Ojai and Carpinteria — The California Department of Transportation (Caltrans) advises drivers to expect delays due to one-way traffic control on SR-150 between Ojai and Carpinteria in Ventura County to allow work on the roadway shoulder beginning this Wednesday, November 1.

Work will begin at Burnham Rd. (west of Ojai) on SR-150 and gradually progress southwest over 13.5 miles towards Carpinteria. When this section of roadway is complete, crews will begin shoulder work on a second section of SR-150 from the Ojai City limits heading east over 12.8 miles towards Santa Paula. No work will take place within the city limits of Ojai.

Construction and traffic control will occur from 7 a.m. to 5 p.m. Monday through Friday and is scheduled to continue for approximately ten weeks. No work is scheduled on the weekends.

Crews will conduct single-lane, reversible traffic control using flaggers.

This is a continuation of a long-term project with an overall cost of 1.4 million dollars and the contractor is C.A. Rasmussen.
